

Advanced/Private lessons work best for developing your dancing quickly as well as for more focused teaching, such as preparing you for a special event, like a Wedding Dance.

Our lessons are customised to your specific needs and we can teach you singly or as a group (for example we can teach your Wedding Party together).

Approach

Our Private Lessons are completely flexible and customised to your special needs.

You can use them to quickly advance your dance skills, work towards a particular goal (for example if training for competency Medals), or to prepare yourself for a special occasion (such as a Wedding).

Lessons are charged by the hour and we can teach you singly, as a couple or as a group. You are free to choose the dance, the style and the steps you want to learn.

Any Time By Prior Arrangement

We do not have fixed schedules for our Private Lessons, so please [contact us](#) to arrange a suitable time.

We teach out of various [studios](#) , or can also teach at a location of your choice (provided it has a dance floor and enough space to practice your dance).

Add to Intermediate Course

The Intermediate Course is a great way of learning and practicing new moves and techniques - plus it has the added bonus of getting to attend the Beginners for added practice and reinforcement.

On top of this, we find many of our Intermediate students also like to take Private Lessons to help them develop their dancing faster.

With Private Lessons you can hone in on the areas or moves you are interested in, then work on them exclusively for as long as it takes.

Then back in the Intermediate Course you can keep practicing your new steps and techniques in a group environment.

Special Events

Private Lesson Pricing

Our private lessons are charged by the hour, so it is the same cost to teach you singly, as a couple or teach your group together (eg. a Wedding Party).

Ask us about our specials.

Pre-Paid Private Course

If you pre-pay for the Private Course, we give you a personalised membership card, then when you come in for the lessons, we tick them off, so you never miss out if for some reason you can't make it at regular times. Contact us for more details.
